## LIVELY CONTEST IS EXPECTED OVER PACIFIC CABLE AFFAIRS

Washington, Feb. 22.—[Special]—The prospects are excellent for a warm fight over the question of a cable from the Pacific Coast to the Orient. The House committee has reported by a vote of 8 to 7 in favor of a Government cable. Mr. Corliss asserts that out of the seventeen members of the committee twelve are in favor of Government ownership, but those who are advocating a private cable say that Mr. Corliss is mistaken. The Mackay-Bennett people take the position that the law of 1895 gives them all the rights needed in the premises to construct, operate and land a cable upon American shores. All they hope to do is to prevent any legislation whatever, that being the outcome most satisfactory to them. They state that their contract calls for a cable to be in operation from San Francisco to Hawaii by November 1st, and they agree to have the cable in operation to Manila within two years from that date. The proposed rates on the Mackay cable are fifty cents a word to Hawaii until the spring end is laid; then the rates to be one dollar a word to Manila and thirty-five cents a word to Hawaii. The present rate to Manila is \$2.35 a word. The contention of the cable company against a Government cable is that the foreign cable companies will not exchange with the Government office and will send all their business by the western routes, whereas if the Philippine cable is owned by a private company all the telegraphic business of the Orient will cross the Pacific on the American wire, thus making it possible for the cable to earn dividends for its owners. They estimate the cost of maintenance at \$15,000 a year with a loss, business end of Manila of about 70,000 words. They say that allowing for an increase of 40,000 words that it means that the fifty cents a word rate proposed by the Government gives an income of \$200,000 as against an annual expense account of a million and a half.

The Mackay people claim that with the exception of Mr. Ward, the vice president of the Postal, their organization is composed entirely of American citizens; that the Government business will be carried over through cable at such rates as the Postmaster General may determine; that the Government shall have the right to purchase the cable by appraisal at any time after its construction, and that any time the necessity may arise the Government can send its own officers and telegraph operators into the cable stations and take charge of the cable. Cable experts express some doubt as to the ease with which a cable can be laid from Hawaii to the Philippines. No cable has ever been laid over such tremendous depths of water for such a distance, and they say that many mishaps are possible during the period of construction and operation whereby transmission would be interrupted for long periods while the cable was being tied together after being broken by the enormous strain to which it will be subjected. It is too early yet to say what the outcome will be in Congress, but a great many believe that when the Pacific cable is laid it will be as a private enterprise and not by the Government. One reason for this belief is that allowing a private company to build a cable does away with the necessity for any appropriation, thus leaving more money for other projects and reducing the total budget by a considerable amount. Recent developments in Hawaii have shown the absolute necessity of immediate telegraphic communications with this part of the United States and it would be many months after the date for which the Manila cable is now contracted for before the Government could arrange to complete the work. Strong pressure is being brought to bear by the Pacific Coast delegation in Congress for the Government to facilitate the transaction of business between San Francisco ports and countries lying to the west. A direct line of steamers has just been put on from San Francisco to Manila through the efforts of the commercial bodies of San Francisco, and there is an urgent demand for a cable at the earliest possible date, regardless of who is to build, own or operate it. A fight will be made against the Corliss bill for a Government cable, and if no legislation results it will serve the purpose of those who are proceeding with the construction of a private wire. This may be the outcome in the situation. J. A. BRECKONS.

## A. J. FULLER LIEBEL VISAYANS FOR HAWAII

### HER CREW COMPLAINS OF SHORT RATIONS

Ship Attached By United States Marshal—The Hearing Set By Judge Estee for Monday Next.

United States Marshal Hendry attached the American ship A. J. Fuller yesterday afternoon by motion of Judge Estee upon the complaint of thirteen seamen filed by their attorney, G. A. Davis.

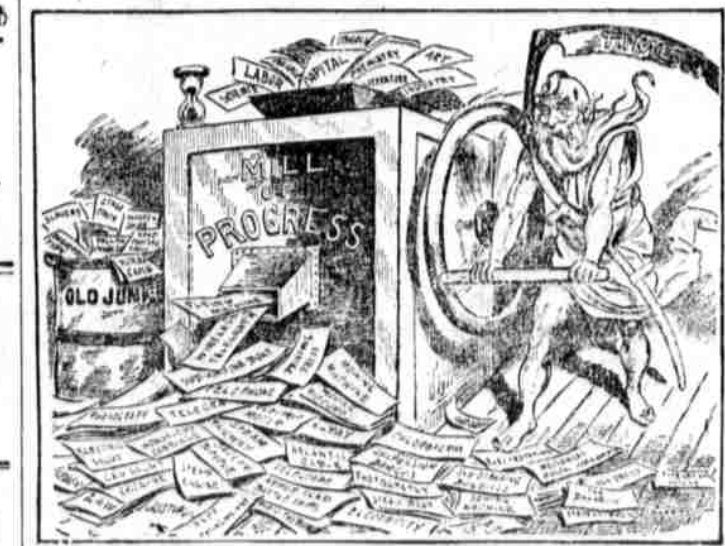

Complainants claim the right to be discharged at this port, with the payment of twenty dollars to each of them on account of short rations. They allege that they joined the ship at Sydney, N. S. W., December 6, 1901, as seamen, and served on the voyage to Honolulu until Feb. 28, 1902, also.

That the master of the said ship and the said ship are indebted to them the said libellants severally in the sum of twenty dollars each for the money due and payable to them the said libellants from the said libellees by force and virtue of the statute of the United States to wit, section 4555 of the Revised Statutes of the United States for that the provisions which the said seamen stipulated for under the agreement entered into before the commencement of the voyage were reduced during the said voyage for the space of forty days by one-third of the quantity which the libellees in and by said agreement were bound to provide and which they neglected and refused to provide without lawful excuse. The libel is set for hearing next Monday.

It is obvious that sixteen stories are quite enough to darken and dampen the streets and to give the effect of an ugly canyon. Such great light obscuring masses must be detrimental to the general health and comfort and they are utterly incompatible with the idea of a city beautiful. If, therefore, the limit should be removed because the same opportunity to build should be open to all property owners, these facts should be remembered when the demands of justice have been complied with.—Chicago Record-Herald.

## NO CIGARETTE FRIENDS

Chicago, Feb. 24.—Cigarette smokers are not wanted at the Northwestern Academy, Evanston, the great preparatory school for the Northwestern University. Dr. H. F. Flisk, principal of the academy, made a speech to the students today against their use and ended by ordering those who thought they couldn't quit them to leave the academy. He said that their tuition money would be refunded.

The address was made at chapel, and Dr. Flisk drew his conclusions of the effects of cigarette smoking from the comparative standing made in recent examinations by those who smoke and those who do not. Dividing the students into four grades, Dr. Flisk said that but 2 per cent of the users of cigarettes were in the highest grade, while 57 per cent of the cigarette smokers stood in the lowest grade. Of the very best students the principal said that not one was a cigarette smoker.

"My experience has been," said Dr. Flisk, "that four out of five of those who persist in the cigarette habit ultimately make a failure in their studies, and for that reason I would advise those who are unable to quit and those who do not wish to quit to withdraw from this school. You are not wanted here."

## ARMY OFFICERS IN A SWELL RECEPTION

The army and ship's officers of the transport Warren gave a most delightful dance in Progress hall last evening, their guests being those people they have met here during their short stay. The hall was very prettily decorated with flags and pennants, placed in position by men of the transport under the direct supervision of Manager Lake of the Hawaiian hotel. The tricolor flag of the United States transport service occupied a prominent place on the platform. Large palms were set about in the alcove and by the doors.

The reception and dance had been originally planned for the decks of the transport but the combined circumstances of the work aboard the vessel and the inclement weather made it necessary for another place to be chosen.

The officers were certainly model hosts and gave Honolulu society people one of the most pleasant evenings they have had in a long time. Their attentions to their guests were unflinching. Capt. Cannon, the army quartermaster aboard the Warren, had charge of the floor. Waltzes were alternated with two-steps and the lancers were danced once for the benefit of the older people.

The dance was given by Captains Dunning, Smiley, Brooke, Vance, Uline, Arnold and Cannon, First Lieutenant Moore, Surgeon McVean, Surgeon Garlington, Second Lieutenants Taylor, Jones, Shaw, Boyce and Gassner. Their guests were Major Robinson, U. S. A., and office staff; Mrs. Robinson, Admiral Merry, U. S. N.; Paymaster Hall, U. S. N.; Captain McK. Williamson, U. S. A.; Captain Pearce, Lieut. Hancock, and Dr. McAdory, Artillery Corps, Camp McKinley; Captain Barness of the transport; Mrs. Colwell, Mrs. Evans and Mrs. Kimbrey, army ladies, and Miss Moore, a navy lady on the transport; Miss Landegren of New York, Miss Elsie Dodge, Miss Smith, Miss May Colwell, Miss Louise Gerard, Miss Agnes Gerard, Miss Marcia Warren, Miss Lucy Roth, Miss Lillian Bacon, Miss Rose Cunha, Mrs. Boettcher, Miss Boettcher, Miss McMorris, Miss Braddon, Miss Agnes, Miss Grace, the Misses Reynolds, Mr. and Mrs. A. F. Judd, Mr. and Mrs. H. W. Lake, Mrs. Henry W. Howard, Mrs. Green, Mr. and Mrs. Emmett May, Mr. and Mrs. Agassiz, and Messrs. Lowell, W. D. Adams, George Angus, Fred Angus, Harry Wilder, Wentworth Buchanan, C. H. W. Norton, A. R. Cunha, N. B. Kooser, Scott, Byron Baird, Maddux, Sexton and many others. Madame Genevra Johnstone-Bishop was invited but was unable to attend on account of her recent accident and the fear that she might impair her voice for the concert Monday night by going out.
